Susan's Ten Favorite Things

白居易 - 问刘十九

1.

For food, I like lots of delicious food but among all those foods, I like hotpot the best, not only because it is tasty and healthy but also because when people in China eat hotpot, everyone need to gather and sit around the table which usually be circular, representing reunion and happiness.

“绿蚁新酷酒，红泥小火炉”

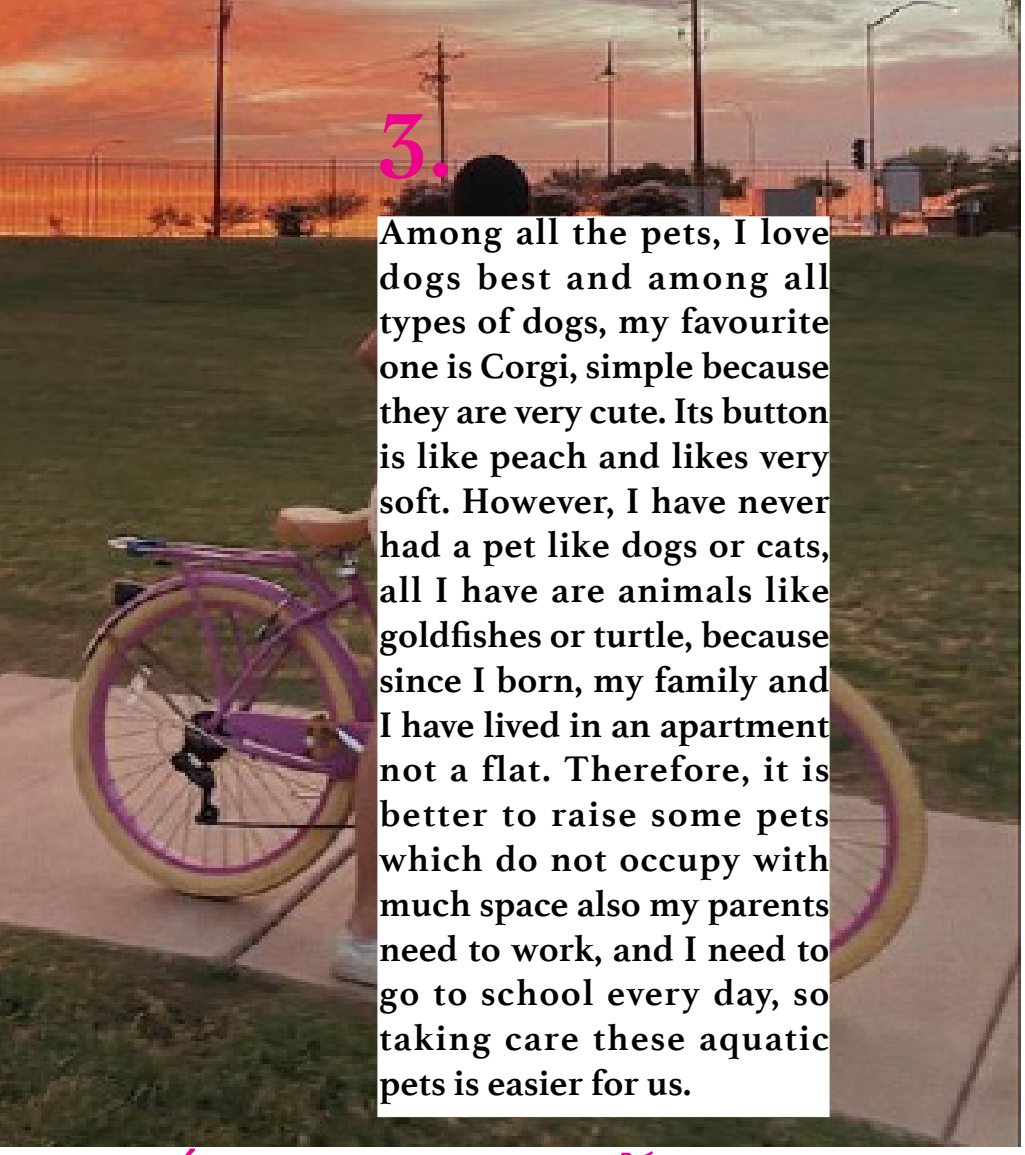

2.

For sport, I used to like swimming because when I swim in the water, I was just like a fish without other restrains or displeasure, all my body is free and relaxed. Moreover, swimming can reduce the physical injuries which always bring by exercises like running. However, then I discovered that swimming has lots of extra restrictions. For example, temperature and enough time. So, I put my eyes on another sport which is yoga. Yoga is so comfortable and graceful sport which people in different generation can attempt to do, the yoga moves include stretch and meditation which are absolutely benefit our health. Imaging work for a whole day and your body already exhausted, your back is painful which caused by sitting for whole day. Yoga asanas can be helpful!

"heelers"

3.

Among all the pets, I love dogs best and among all types of dogs, my favourite one is Corgi, simple because they are very cute. Its button is like peach and likes very soft. However, I have never had a pet like dogs or cats, all I have are animals like goldfishes or turtle, because since I born, my family and I have lived in an apartment not a flat. Therefore, it is better to raise some pets which do not occupy with much space also my parents need to work, and I need to go to school every day, so taking care these aquatic pets is easier for us.

4.

When I was in China, I was enjoying riding a bike. It offered me many open spaces; I can feel the wind blowing through and I can control where do I want to go and the speed of riding. Compared to other facilities like bus or car, bike gives the rider more freedom and chance to contact with the natural work, when you are riding, you can hear the birds' songs and see the beautiful scenery along the way.

5.

For clothing brand, I will introduce a Chinese clothing brand to you which named Semir. The style of the brand is very suitable for girls between age 15-20, also the price is affordable which range between 30-50 dollar. My favorite coat was brought from this brand which is very warm and stylish. It is purple and was made by cotton, so wearing it in autumn is perfect choice. My canvas shoes are also from this brand, at first, I didn't predict that it's so comfortable that you even can run a long distance with them, because it just a brand which mainly sold clothes, but later I find this brand is such a treasure, and that's another reason for recommendation.

6.

I like both coffee and sparkling water such as cola and sprite the best , but I think drinking coffee is more like my habit not preference, so I choose sparkling water as my favorite. The reason for this one is because I am enjoying doing sports, after working out, I always want to have something cool, so sparking drinks became the first choose that's closely related to the carbon dioxide inside. Imaging hundreds of burbles are flowing in your moth and the beverage is iced, that's so good experience when you feel too hot after exercising.

Delicious and Refreshing.

From the APP 'RED'

Don't part with your illusions. When they are gone you may still exist, but you have ceased to live.

7.

The application which I choose called 'RED', it is a Chinese software that a lot of bloggers shared their lives and experiences in it. It helps me a lot in both studying and living aspects, because I can always find what I want to know from it. For instance, when I worried about writing in university, I search 'how to improve wiring skills' then it will help me find that many bloggers' same experience and recommendation on writing website and books.

8.

For books, my favorite novel is 'The Great Gatsby'. I like the metaphor which author used in this book. For example, the advertisement in the valley is a pair of eyes of a doctor which is not simply eyes. In my opinion, the eyes are not just a human's eyes, they also represent the god eye who watched every truth, and everything happened in the world without talking. The eyes also witness the failure of 'American dream' at that time.

Loyalty and Betrayal

Doctor t. j. eckleburg's eyes

The American dream

The green light

Love and Death

9.

My favorite film is called ‘Maud’. It is based on the life of Canadian folk artist Maud Lewis, who was born with rheumatoid arthritis. The movie follows Maud's journey from being Everett's maid to becoming a well-known painter. For me, the most touching part of the movie is her love for Everett. Everett was raised in an orphanage, which caused him to have character flaws like being suspicious,

“The whole of life, already framed.”

10.

The favourite city I've ever travelled to is Changsha, the capital of Hunan Province, which has many cultural attractions such as Orange Island and the Lovely Evening Pavilion. But the main reason I love it is because of the food, the specialties are stinky tofu, stir-fried yellow beef, etc., which are tasety and cheap!
